You can protect Medicaid.

U.S. Senators plan to vote on a bill the week of July 26th that could effectively end Medicaid as we know it. This legislation would leave millions of children, children and adults with disabilities, seniors and low-wage workers without health coverage, reducing access to care particularly in rural areas, and causing thousands of health workers to lose their jobs.

Do you know someone who lives in any of these states?

If so, ask them to call their U.S. Senator now at 202-224-3121 and share this message:

Tell your U.S. Senators to please reject any bill that:

1) Effectively ends the Medicaid program as we know it by cutting billions of dollars in Medicaid funding to states through a per capita cap.

2) Causes millions to lose health care coverage by effectively ending the Medicaid expansion by phasing out the enhanced federal match.

Call your U.S. Representative with the same message as above:

Use your zip code to find out who represents you here house.gov/representatives/ or call 202-224-3121.
